

Baptcare

Big House

Splash'N Boots

You don't need a big house
You don't need a big car
All you really need
Is to love who you are

You don't need a big house
You don't need a big car
All you really need
Is to love who you are
And have love, love, love

I love my family
I love school
I love swimming in the pool I love laughing
I love singing
And especially I love me

You don't need a big house
You don't need a big car
All you really need
Is to love who you are

You don't need a big house
You don't need a big car

All you really need
Is to love who you are
And have love, love, love
Love, love, love

I love my farmer
I love my friends
I love counting
One to Ten
I love music
I love grooving
And especially I love me

You don't need a big house
You don't need a big car
All you really need
Is to love who you are

You don't need a big house
You don't need a big car
All you really need
Is to love who you are

You don't need a big house
You don't need a big car
All you really need
Is to love who you are

You don't need a big house
You don't need a big car
All you really need
Is to love who you are

You don't need a big house
You don't need a big car
All you really need
Is to love who you are

You don't need a big house
You don't need a big car
All you really need
Is to love who you are
