

# SPEAKING SPOT BENDIGO

## **SPEAKING SPOT BENDIGO – TELEHEALTH** **Free online Speech Pathology clinic for children under school age**

Speaking Spot Bendigo will continue to run as a virtual clinic in 2022. This is an opportunity to speak with a speech pathologist and maternal child health nurse about your child's speech and language concerns without a referral or pre-arranged appointment. The service is available for children aged birth to school entry.

The portal will open at 9am on the Speaking Spot dates (see below). Appointment windows will be allocated to the first people who log on. Spaces are limited, so you must be available during your timeslot. If maximum capacity is reached, you will be notified upon logging on and advised to attend the next scheduled clinic day.

Each 20-30 minute session will include a brief discussion about your child's development, along with some suggestions to assist with your child's communication. A referral to Speech Pathology can be made on the day if follow up is required. We thank you for your patience as we continue to use Telehealth for some of our services.

### **2022 Telehealth Dates**

<b>Date</b>	<b>Venue</b>	<b>Time</b>
Wednesday 16 February 2022	Telehealth <a href="https://videocall.direct/speakingspotbendigo">https://videocall.direct/speakingspotbendigo</a>	9.00am- 12.00pm
